Queerburners Event Directory 2024

NOSOTRES is a monument to the ancient history of the queer community. Standing at 50' tall with depictions of nonbinary faces and Mictlan (The Aztec Underworld) this evolution of our 2022 Burning Man Piece, THEM, serves as a reminder that queer people have been here since the beginning of time. Queerness represents our past, present and future and we honor the many deaths of our past selves that help us move forward.
